

ATOSS Munich has a new address

Munich, February 14, 2018. **Pioneering technologies need a broad perspective. The staff at the Munich headquarters of ATOSS now have just this in the HIGHRISE ONE tower located in the new industrial district near Ostbahnhof.**

Glass facades, windows down to the floor, a rooftop terrace with a view of the city skyline and individually tailored room concepts – these are features that create a transparent working environment. And this set-up perfectly matches the ATOSS “New Ways of Working” strategy, which the company has now visualized architecturally with its move into the office tower. The open offices and the meeting, action and training rooms are equipped with state-of-the-art technology and the very latest fittings and furniture. “As a technology company, we stand for innovation and a broad perspective. With its infinite horizon, HIGHRISE ONE perfectly matches our philosophy, symbolizing the idea that we set our sights on new things,” says ATOSS CEO Andreas Obereder. The company's philosophy is also reflected in the industrial district where the tower is situated, with its vibrant, dynamic atmosphere. HIGHRISE ONE has 17 floors, five of which are now housing the ATOSS home base in Munich.
