01 Market for Workforce Management, business model and product update

Workforce Management landscape continues to grow and evolve

Global trends in the WFM market

- Digitalization of labor:** AI-driven WFM solutions enhance efficiency and business value for both employees and managers¹
- Increasing regulatory complexity:** Europe's multi-layered regulations including collective bargaining agreements increase demand for WFM solutions that simplify compliance and streamline management, particularly for hourly paid workers
- Resource and skilled staff scarcity:** Workforce scarcity has accelerated investment in advanced scheduling and employee experience initiatives to optimize deployment, retention and efficiency¹

Current AI services portfolio & 2025 pipeline

We initiated the rollout of our first AI services for ASE/S in 2024, with **five services** already in **general availability**.

Service name	Current status	Description
 Demand Driver Forecast	General availability since 04/2025	Demand drivers such as customer or patient numbers are analyzed in order to accurately determine personnel requirements based on forecasted work volumes, historical data and budget allowances
 Anomaly Detection	General availability since 04/2025	Identifies anomalies using machine learning. Administrators have the opportunity to check and correct data to ensures improved data quality, which serves as the basis for more precise forecasts
 Vacation Rate Forecast	General availability since 08/2025	Based on historical vacation data, AI generates vacation rate forecasts that are integrated into the Capacity Planning process, reducing manual effort and boosting the accuracy of long-term workforce planning
 Illness Rate Forecast	General availability since 08/2025	Identifies recurring trends and generate accurate forecasts based on historical illness data. Illness rate forecasts are integrated directly into the Capacity Planning workflow, reducing manual effort for the planner
 Workforce intelligence	General availability since 08/2025	Delivers workforce insights with dashboards and custom analyses. Users can filter charts, adjust timeframes, set alerts, track trends. Forecasting tools optimize planning and open future benchmarking capabilities.

Next steps: Going forward we plan to expand our ASE/S portfolio with additional AI services and leverage synergies available from ASE/S to extend the AI solutions to the rest of our solution portfolio as well.

Strategic investments in 2025 to drive long-term revenue growth and profitability

2025 marks the beginning of a strategic investment phase to build the foundation for **sustainable growth and scalability**

EBIT margin in %

Cost ratios¹ in %

In 2025, we are entering a strategic investment phase to lay the foundation for sustainable long-term growth and scalability. Key focus areas include:

- 1 GTM Organization:** Building a scalable, data-driven sales engine by enhancing marketing, demand generation, and SDR capabilities to improve lead qualification
- 2 R&D:** Accelerating Cloud transformation by driving Cloud-based innovation to migrate existing customers to Cloud solutions
- 3 Other:** Digitalization projects to improve efficiency and further investments in Crewmeister

These initiatives will temporarily impact profitability but are critical to unlocking scalability, and achieving our long-term financial objectives of ~€400m revenue and >35% EBIT margin in 2030.
