

## **ATOSS Opens AI Technology Hub in Bengaluru to Drive AI-Powered Workforce Management Solutions**

**Expansion strengthens ATOSS' global AI capabilities and supports future product innovation**

Munich, May 19, 2026 – **ATOSS Software SE, a global leader in Workforce Management Software and listed in Germany's key stock indices SDAX and TecDAX, is strengthening its position as a technology and AI innovator with substantial new investment in artificial intelligence development. With the opening of a new technology hub in Bengaluru, India – one of the world's most dynamic AI and tech talent hotspots – the company is expanding its international presence and concentrating even more expertise on AI-driven product innovation. The new hub will play a key role in advancing artificial intelligence within ATOSS solutions and will strategically complement the existing development teams in Germany and Romania.**

ATOSS is opening its new hub at International Tech Park Bengaluru (ITPB), dedicated to building the next generation of agentic AI for intelligent workforce management solutions. The Bengaluru hub brings together a highly skilled team of experts focused on multi-agent systems, conversational AI, reinforcement learning, large-scale optimization, and forecasting, all directed toward AI agents that can plan, simulate, and orchestrate work in real time for customers. They will work in close collaboration with the R&D units in Munich, Germany, as well as Sibiu and Timișoara in Romania.

Bengaluru is a prime hotspot for AI and software development – an ideal environment to attract the brightest minds for ATOSS' vision and to reinforce the company's ambition to be a technological frontrunner.

“With our new location in Bengaluru, we are investing specifically in the future of our technology stack and expanding our position in AI-powered workforce management software,” says Pritim Kumar Krishnamoorthy, COO of ATOSS. “This new hub will bring top talent into our network, working hand-in-hand with our teams worldwide to deliver on a global scale. By combining unique perspectives and expertise, we'll innovate faster and design smarter – together,” he continues.

The opening of the technology hub in Bengaluru represents another important milestone in the company's international expansion and AI-first innovation strategy and underlines ATOSS' commitment to actively shaping the future of work through intelligent technologies, consistent investment in innovation and deep expertise.
